Mayor Report: None

Police Report: Chief Doran read the statistical report for July as follows:
Criminal arrests-1; traffic citations issued-226; appearances in county court-2; appearances in magisterial court-21; motor vehicle accidents-14; assist to ems/fire-3; assist to other police dept.-12; alarms-1; thefts-3; vandalism-2; disorderly conduct-2; PFA violations-2; domestic reports-1; suspicious activity-6; DUI Arrest-1; assault/harassment-6; miscellaneous calls-41; building checks-30; code enforcement/rental inspection-28. Vehicle Mileage: F150 – 69,568; #2 Explorer-35,112; #3 Explorer-34,031. Magistrate Fines Collected - $3,231.68.

Solicitor's Report: Erik spoke about the door to door sales and he is reviewing an ordinance to regulate door to door sales. It is not simple or easy. Erik spoke with other municipalities and some have fees from $50 to $500. So if you are a kid going to college and you need money, and you do door to door sales, you cannot afford $500 for two or three months doing this. We don't want to hurt anybody, but at the same time we should know who is coming up on our porch. We will make up an application. The ordinance I started with will basically say tell us who you are, tell us what you are doing, just so we know. We are not stopping you to make a buck so you can go to college. The fees he is looking at is $50 for two or three months. Not sure that is going to work. Council will have a draft in their mailboxes within the next two weeks. We will look at it next month. This is a sign of the time. I don't think we should get in their way necessarily, but then again we can discuss the draft next month.

Engineer's Report: Bob Naegele updated on the following: (1) Astound was supposed to be in Quail Hill today doing repairs. They got delayed and will be there tomorrow at 8 am. Moe and I will be spot checking and keeping an eye on them to make sure they are on the right track. (2) Police Entrance and Garage – We met to reduce scope of work to get these projects under budget. We are waiting for response form contractor. (3) OCD grant for the 249 Demo and ADA Ramp projects - Stafursky was the low bidder and it was a clerical error. Both the demo and ADA bids came in over budget and we went back to the county who approved additional funds to complete those projects. (3) Hemlock park project, the basketball court and walk trail are substantially complete. We will be closing out the paperwork on that. (4) Hose Company project is complete and we are closing out that paperwork as well.

Fire Dept. Report: Fire Chief Don Hudzinski Jr. read the July report as follows: total incidents-26; paid staff responses-15; volunteer responses-11. Incident Type: fire alarm-4; FD investigation-1; Motor vehicle accident-6; gas leak-1; open burn-1; EMS assist-9; rental inspection-2; aircraft incident-2. Jurisdiction: Dupont Borough-18; Hughestown Borough-5; Avoca Borough-1; Pittston Township-2.

EMS Report: Joey stated Hughestown EMS responded 33 times into Dupont for the month of July. (A full copy of report is available in the borough files. The report is prepared by Jamie Merlino, Hughestown.

EMA Report: Joey stated the 402 class is here Thursday at 6 pm presented by Luzerne County Dept. of Emergency Services. It is for all municipal employees and elected officials. Public can stop by. It gives an overall summary of the role of municipal employees and elected officials during emergencies. It will be very informative. We also reached out to other local municipalities to attend.

Code Enforcement Report: Joey reported during July 15 Notice of Violations were issued, 8 rental inspections, 8 cases closed, 9 citations filed.

Crime Watch Report: Bob Price noted at the July meeting they discussed issues in town. Also they ordered smaller signs for people's windows that show we have crime watch in town. Also looking into signs to go around town. The next meeting is August 26, 2025 at 7 pm.

Council Vice President Report: Mark reported the following: Comingle – 4.5 tons, Paper 9.36 tons; Trash – 83.12 tons. Mileage: Green Pickup – 10,759; Packer 9,493; Recycler 47,329; 6500 – 2,332; 3500-21,311; Bucket Truck is in for rotary joint fluid leak at Altec.

MOTION APPROVING ANGLE PARKING FOR SECOND STREET APARTMENTS PER DRAWINGS SUBMITTED BY PROPERTY OWNER
Borough Engineer Bob Naegle explained the drawings:
They proposed angle parking. They picked up two spaces. That would leave 16 feet behind the angle parking. It is tight for two cars, two way traffic. It is a dead end street so thee shouldn't be too many people passing through at the same time on the dead end road. Bob mentioned the previous meeting talking about turning around and using the driveway adjacent to the last apartment building. It is not ideal. After reviewing the drawings and asking questions, Joe Karkut suggested it stay as is currently. Bob says he shows 11 angle parking, 9 with parallel parking. He gets an extra parking stall next to 6 at end of units. Bob feels it is not worth doing it for 1 extra parking spot. Mark noted there is a garage across from that area. That affects the angle parking if that garage were to be active, current it is not. Bob does not see the benefit of it. He does have room alongside the building and behind it. Mark's main concern would be causing conflict for a future possible property owner across the street. Not making that more difficult.
NO MOTION OR SECOND: **MOTION FAILS** APPROVING ANGLE PARKING. PARKING IS TO REMAIN AS IS CURRENTLY.

Motion Carried 4/0.

Mark noted that is the end of the motions, is there anything from the Audience.

Ellen Price, Borough Clerk addressed Council on the following:

(1) Several calls coming in about garbage, 3 or 4 a week regarding garbage not picked up because DPW comes out early, and they don't put it out because of the critters overnight, asking if it can

go back to 7 am start? Mark stated this has to do with the weather, probably in September it will go back to 7 am start, but that is not official.

(2) How does Council want to have the Wyoming Avenue Wall fixed. Do you want to reach out to the insurance company or do you want to have Jerry or Jason fix it? Joey questioned Chief on damage, Chief stated it is one stone to be put back in place. It was decided DPW would fix it.

(3) What kind of signage do you want in the park, walk trail area – No bikes, no skateboarding, nothing with wheels. Bob Price suggested no bikes, no electric bikes, nothing wheeled should be allowed for safety reasons above all else.

Nelson Griffin, Everhart Street – Corner of Holden and Everhart, looking to get NO lIttering Signs listing a fine. Hoping to deter neighbors from throwing their trash out that I end up cleaning up.

MOTION TO PURCHASE NO LITTERING SIGNS TO BE PLACED SPURATICALLY THROUGHOUT TOWN
Mark asked Erik about the set fee for fines. Chief Doran stated there are also court costs and added costs so the $25.00 fine is actually $150. Joe Karkut is not opposed to spending money on signs, but he doesn't think a sign will deter people from littering. If you don't have common sense to not litter. Mark suggested trying one sign over there where the problem is and see if it works.
Motion: Mr. Jones
Second: Mr. Price
Roll Call Vote: Mr. Knick, Excused; Mr. Kowalczyk, yes; Mr. Karkut, yes; Mr. Price, yes; Mr. Jones, yes.
Motion Carried 4/0.

Mark asked the Chief for a recommendation on the fine. It was agreed at $100.
Motion to Amend that motion to make the fine $100. Unanimous. That will be throughout the town.

Mr. Cigan, Gill Street - What is the status of the quarry? Joey stated there was still no decision out of the court yet. Erik agreed. Mr. Cigan stated the quarry was operating without permits from the county. It is under appeal. What about the hearing on September 9, 2025 in front of the Luzerne County Zoning Board. Mark was unaware of the date but knew it was in the future. Erik also noted he did not know the date. Mr. Cigan talked about the DEP website listing moderate blasting on a continuous basis can be detrimental to a house. Considering that, what is the Council's plans about this, are you going to object to it? Erik stated it is going through the court system. Joe Cigan continued conversation with council on the reclamation in the past and it was supposed to be green space or residential. Mark stated he was here at the meeting when George Albert had it. They changed it to residential 2 for townhomes. They got the permission to screen out so much mine rock and take to cogen plants to get material out of the way and in the future develop the property into R2 zone. Since then from what Mark was told, they didn't get the BTUs out of the mine rock they were hoping and the company there now was doing the work for them, and ended up buying the property from them. That whole area was a manufacturing zone, including my property. R2 means apartments. They were allowed to remove so much material per day to get the property where it can be developed.

MOTION TO SEND LETTER FROM SOLICITOR DINGLE OPPOSING THE OPERATION OF A QUARRY AT THAT SITE.
Motion: Mr. Jones
Second: Mr. Price
Roll Call Vote: Mr. Knick, excused; Mr. Kowlaczyk, yes; Mr. Karkut, yes; Mr. Price, yes; Mr. Jones, yes.
Motion Carried 4/0.

Joe Cigan asked if Council will be in attendance at the meeting to stand up and speak up against it. Mark agreed someone should be there. Joey will attend if out of work in time and Erik will look into the schedule and attending. Mark noted that is the date of our next council meeting. Joe Cigan brought up the Transfer Station. Judge Hughes recused himself from the case and it is being forwarded to another judge. Erik was unaware of this and will look into that also.

Joe asked Mr. Cigan if the curb worked out that was put in for his property. Mr. Cigan stated it worked great.

George Jendrey – 250th Anniversary of the United States. It is the 250th year of the Post Office. Will Council or Mayor entertain a proclamation that the Post Office should stay in its current state and not be privatized. George provided a sample proclamation for review. Mark stated he does not know too much about it but will look at it. George talked about what is happening with the government and spoke about what is happening with regard to the postal service. Joey stated we will review what he presented and get back to him on it. George added additional comments and examples of what this will mean to the public. Mark thanked him for the information and it will be discussed next meeting. Mark will read up on it and George offered he is available if any one has any questions.

Joe Cigan, With regard to the zoning hearing meeting being the same date and time as the council meeting can council change the date. Erik stated if it is scheduled you can petition the courts to change it. Erik will follow up with the scheduled meeting date. The borough always gets a letter about zoning hearings in the borough and it should be posted in the paper.

Jamie Marcellini, 109 Curtain Street – About two years ago I came before the board, Dupont Borough, about an issue in my house that was falsely inspected by your building inspector, BHW. Two years I have been fighting to get help. Dupont Borough has absolutely done nothing for me. I really think, I would suggest you look into this building inspector. I would like this whole entire room to come look at my house and see how it was falsely inspected. I have in writing from BHW that my house is failing due to a quick flip and it is BHW's fault. Well guess what, BHW was the building inspector. A low bearing wall was removed during the renovation and no supports were put in place. My house started collapsing in on itself two years ago. I put a low bearing wall up. I spoke with Patty multiple times and it was brought up to a higher? I was told, two years. My foundation is failing, I asked the borough since 2021 to please fill in the alley way. That has yet to be done. That fills up with water. Why can't I get any help from you guys. Why? BHW …. I have legal services for two years and I can't get anything. I can't go against you guys because everybody is immuned. Because Luzerne County is so corrupt. I went outside the area, and guess what, $30,000 retainer fee and $280 per hour for a lawyer. I can barely p ay my bills the way it is. I have structural cracks throughout my whole house.

Joey asked if when she bought the house did they disclose that the low bearing wall was removed. Jamie responded no they did not. The seller did work and they are required to disclose that. Jamie stated BHW was building inspector. The owner came in and pulled $50,000 permits for this house. BHW responsibility is to come in to see house condition and follow up everytime something was done. She continue to explain what she has dealt with and that she has lived there four years. Her house is buckling. She highly suggests the Borough look into a different building inspector before this company seriously hurts somebody within your community. Joey explained we have been looking into someone else. I spoke to that gentleman right there two years ago and he said there are complaints on BHW and there is nothing we can do. You continue to allow BHW to inspect houses and guess what, $83,000 I paid for this house is now down the drain. It needs to get demolished that is how bad everything is. So

until your family is in this situation, and I pray you never are in this situation. I am stuck between a rock and a hard place. ? to knock it down and rebuild. Joey again apologized for what she is dealing with and asked if the person she bought it from. It is the seller's job to disclose. You allowed the building inspector to say it is structurally sound before it was put on the market, it doesn't make sense. You can go after the seller. Jamie said talk to the 20 lawyers I went to in Luzerne County to try to get help. I came to you guys for help, nothing, it was swept under the rug. This organization here, I had five things with this borough, and not one thing was done. Not one. Joey stated we did fix that alley. It builds up with water and goes into my basement. Because the building inspector is passing houses that are not sustainable. Jamie added BHW lied in writing, since the borough cannot protect her, she is here to protect the borough. I will show you every paperwork, come to my house 109 Curtain Street. He allowed work to pass. Joey asked what the permit was taken out for. Joey noted he is a building code official himself. This discussion continued with Joey and Jamie talking about this issue. Jamie also noted the right to know request she submitted was not properly handled by the borough or BHW the first round and it took her to go to the district attorney of Luzerne County to get the right to know form done correctly. She went on to say what the reports showed, what she did, and that she is over the two year mark to go after the seller. She is coming to the Council because if she decides to get the house fixed am I going to have to use the building inspector, because I'll be damned if that guy is going to inspect the house if I get it redone. Mayor Lello asked Jamie if she went back to who she purchased the home from. I have gone to lawyers to try to speak to him, there was no phone number. The only person I was able to speak with was the realtor. That's another thing, occupancy permit, Dupont's rule is the house has to be vacant for one year to need an occupancy permit. I had an FHA loan, Dupont didn't even follow that. They allowed BHW state that an occupancy permit is not needed. After that house was fixed no body was in that home. There was no address. The seller of the home lived in Wilkes-Barre. I am trying to get an answer on why an occupancy permit was not needed on my FHA loan. Why was BHW allowed to overrule Dupont's law. Patty said what did BHW say? Why does BHW have any say in what Dupont's law is? I would like to know. Patty ignores everything that I say. I've complained about her multiple times. I understand she's busy enough and you guys overwork her. But its not right. Joey stated who is the seller of the house. Jamie responded Dominic Berlinger. Joey stated there is nothing a lawyer says you can do about it. Jamie responded no, no one in this area will go after anybody. Joey asked who the attorney was. Jamie stated she has two years of paperwork, there are 20, she has the list at home. Joey asked Jamie to stay after the meeting to talk with him. Jamie apologized for being angry but this is unacceptable.

Mr. Cigan – Stated a very close friend of his family had the same exact experience. Build a new house, $8000 in inspections. The building was faulty. Engineer checked it, it wasn't safe. To litigate this situation is economically impossible. He was able to do it, but for the average person it is just impossible to litigate it or to get someone to actually take it to the court system. It does happen more than you know. Jamie stated she doesn't know what BHW has in this area, but they are in fifteen counties and in Luzerne County alone they are in 17 municipalities, boroughs and districts. Not to mention the other 14 counties, so how can 1 person with three licenses be in every county.

Joe Cigan commented. Joey Jones spoke of an attorney and a situation in Pittston. Jamie said she reached out to him and he didn't return her phone call. Mark also apologized for what she is going through.

Matters from Mayor and Council:

Mayor Lello – Food Drive August 28th. Thanked everyone for coming out to the ribbon cutting for the basketball courts. It was great to have the town together. Looks forward to more events like that.

Bob Price - Echoed the Mayor's comments. The weather was perfect. People were out seeing their neighbors. There were a couple vendors out there.

Joe Karkut – Excellent time out there, well attended, refreshments, perfect day. I 'd like to shoot some basketballs there. It seems like a nice place and I hope it doesn't get vandalized.

Joe Jones - It was a beautiful day . The news was there. It was a nice time. I want to commend Patty for everything she did with that, and what she does with everything. She does a lot for this town. She is the heart and soul of this town. If anybody is interested in coming to this training, it is more for municipal employees, but you are more than welcome. There will be pizza. The other item is the IWORQ system. It is up and running. The GIS data has been uploaded to it. Officer Tamburello will start using it for code enforcement. We will slowly integrate the other services trash, sewer, mechanical device, rental inspection, building permits. We will slowly do that, I don't want to overload Patty until she gets trained on the new system.

Mark Kowalczyk – Happy Labor Day. It is the end of the summer and before you know snow will be flying. Time is flying by unfortunately. So enjoy the rest of the summer. The next meeting of Council is scheduled for September 9th.

MOTION TO ADJOURN. Unanimous.

Respectfully submitted,
