The Regular Monthly Meeting of Dupont Borough Council was called to order at 7:00pm on Tuesday evening, October 11, 2022 by President of Council, Stanley Knick.

Pledge of Allegiance.

Roll Call:

Mr. Knick – Present	Mr. Kowalczyk – Present
Mr. Karkut – Present	Mr. Price – Present
Mr. Jones – Present	Mayor Elaine Lello – Present

Mr. Knick called for an executive session for legal and personnel matters. Upon return from Executive Session, Solicitor Dingle addressed the audience with regard to tape recording the meetings. The issue is can anyone come in and tape record. The answer is no. State statue states you have to tell someone you are recording them. They can say no way. If anyone is in here tape recording, we don't approve it. Do what you want. We already passed this by the DA, no one has permission to do that here. If you want a copy of the tape you can get one. I am not giving anyone permission to tape me. Stanley added if you are caught we can prosecute you for taping this meeting. Everyone knows we tape the meetings, it does not leave the building. The minutes are done. If someone wants to listen to the tape, file a right to know. You cannot tape it on your own and take it out of the building. Lou stated he came to listen and it is not a good recording. It has been here for years, Lou said. Stan said the old recorder was cassette tapes. We are trying to keep up with the times, handicap ramp, pave streets, we are doing our best. We have a budget to go by.

Mayor's Report:
Mayor Elaine Lello noted the monthly food drive is October 27th. We are also dedicating a presentation to our two churches Sacred Heart of Jesus and Holy Mother of Sorrows from the Lions Club in appreciation for the use of the church halls for the food drives all these years. A monetary donation and a plaque presentation the day of the food drive. If anyone wants to volunteer, or if you have children at home, our town needs volunteers, our Lions Club needs volunteers. Bob Price had a program this past Saturday with the Eagle Scouts, 15 children, and he advertised for volunteers and the only ones that

showed were Bob and his wife. Everybody wants something and we have to give back. We have to give back to Dupont. Like I say all the time, we are going to wake up one Christmas morning and Dupont is going to be dark because we do not have anyone to put up the Christmas lights. So if you have kids or grandkids at home send them to volunteer. We need volunteerism.

Police Report: Chief Demark reported the following:
Criminal arrests-2; traffic citations issued-40; non traffic citations issued-1; appearances in county court-3; appearances in magisterial court-27; motor vehicle accidents-11; assist to ems/fire-6; assit to other police dept – 4; alarms-1; thefts-4; vandalism-1; disorderly conduct-5; pfa violations-1; domestic reports-5; suspicious activity-7; dui arrest-1; assault/harassment-1; miscellaneous calls-35; building checks-54. Mileage: F150- 39,197; Explorer#2 – 8,320; Explorer#3 -6,605. Magistrate Fines collected: $2,200.71.

Engineer's Report: Bob Naegele reported the following: (1) We viewed pictures of the ill Creek project while you were in executive session (2) Assisted Patty with the LSA Grant application for the Garage/Pole Building for small equipment for the public works lawnmowers, roller etc. instead of moving back and forth from the garage on Commerce; (3) ADA Ramp project is well underway. It should be completed within the next three weeks or so. Sidewalk, curb, door and pave. He asked Mark to assist their office with laying out the limits for parking near the clock tower, paver walkway because of the salt and the concrete projects leaving a landscape buffer (4) The flood channel is significantly underway, the concrete pour is tomorrow. They really just got started with the heavy work. They were fighting with the bypass pump scenario for quite a while. They tried multiple things that did not work, but now seem to have a solution in place that is working. The first concrete pour is tomorrow and once that is done they will move down the channel then come back and do the side walls. That work should be continuing well into the fall and I will have to get an updated schedule from them because they lost a considerable amount of time on the bypass pump issue. (5) Walnut Street stormwater project – same contractor as the ADA Ramp. They have not responded as to when they are coming to do curb and sidewalk. I believe once they are done here they will move over two blocks and get that work done. (6) MS4 report went into DEP (7) 143 Main Demo project – Riddle has filed the ten day notification to DEP to do the environmental clearance. Once that is done Brdaric will come in and tear the building down. (7) Another question that came up with the Multiscape project is they need to install a subbase road along the creek channel, the grass area you drive up along the channel. Due to the weight of their trucks they noticed there are soft spots. The question is does the Borough want that stone to remain, or topsoil and plant grass when done. We don't have to answer that right now, you can check the area and decide. There are pros and cons to it, one is stability for the dpq to get up and down there, or it is not as nice back there to walk on the grass up the trail. Mark asked when they are going to be finished there. Bob stated he has to find out. Mark asked about coming back in the spring to do the grass. Bob stated if we want them to they have to. It is in the contract to restore it. It is your decision if it is a benefit to leave the stone there or if you want grass back, put the grass back. Stan said we will all look at it and make a decision.

Code Enforcement Report: None

Crime Watch Report: Bob Price stated last month's meeting topic was the Halloween Trunk or Treat to be held October 29th at Sacred Heart of Jesus Church parking lot. There are flyers in the back of the room and posted. Anyone wanting to participate can do so just call Ellen or the Borough numbers listed on the flyer. We are hoping to fill the parking lot and have a great night for the kids. The next meeting is October 25th at 7 pm here at the borough building. Like Elaine said we need more volunteers.

Council President's Report: Apologize, no mileage or tonnage this month. Bob discussed the ADA ramp, the Main Street demo, Lidy Road demo is down and seeded, looks good. One dump truck is at J & M Auto, vehicle accident need fender work.

MOTION TO APPOINT THE 3 MEMBERS TO THE APPEALS BOARD FOR CODE ENFORCEMENT, UCC CODES, AND RENTAL INSPECTION POGRAM.
Stanley noted right now we have Mrs. Hansen, Mrs. Hailey Coley that applied for it. We will go with these two right now and then look for someone.
Question: Mr. Lokuta was actually thinking about doing this, but he read the ordinance and did not see anything about procedures for appeals, description of it. The written request was due yesterday, would you entertain my letter today. Stan Knick stated yes. Mr. Lokuta was provided a paper and submitted his letter of interest. Mr. Lokuta submitted the letter to council and asked questions: description of board, procedures and policies. Will those be addressed at a later time. Mr. Knick stated yes, if someone is cited, and they think they were wrongly cited, they will come in front of the board and the board will hear both sides and make a decision. Solicitor Dingle stated we went over this, this is a start and let us see how this works. It is going to be as good as the inspector that we pick, we have two in mind, and the board. My suggestion is we start, see how it works, we might have changes but we have to start somewhere. The start is to get three people to sit on the board in judgement and review anyone's objections as to what we are doing. If we need changes, we will be back in a month or two or three. Jan asked if council is going to explain the ordinance in more depth later in the meeting because he has a few things that don't make sense to me. Erik stated he can do anything requested.
Motion: Mr. Kowalczyk

Matters from Residents in Attendance:
Jan Lokuta – Rental Inspection Ordinances. Section 2 Purposes; fails to include notice of requirements. Section 3. Definitions ; Section 4. Appointment of Property Manager; Section 12. Board of Appeals/Hearing Procedures and Appeals.

Stan and Erik stated once we have the board, which we now have, we meet with the Inspector and sit down and how are we going to do this exactly. We have a generalization here, lets see how exactly we are going to do this. By the way, the two or three things you already brought up just give to Patty and we can make those changes. Anything you said so far is fine. Jan suggested they may basically be typos.

Ellen brought to Council President Knick's attention a motion needed for One Source.

Stan explained this is a benefit package for the workers. We will have to call a special meeting in a week or two, advertise it, present a package to us. They say they can save us money and the benefits are as good as the plan we have now. If not, we have to renew with current carrier.

MOTION TO MEET WITH ONE SOURCE FOR A PRESENTATION ON THEIR PROPOSAL.
Motion: Mr. Price
Second: Mr. Kowalczyk
Roll Call Vote: Mr. Knick, yes; Mr. Kowalczyk, yes; Mr. Karkut, yes; Mr. Price, yes; Mr. Jones, yes.
Motion Carried 5/0.

Stan called for any other matters from Audience.
Lou Posly – After listening to the budget we have $1,500,000 I find it hard to believe we can't get a better tape recorder. Second, the house on Lidy Road, where is it located. Stan stated up from your house, under the bridge, on the corner of the road where Chesniaks live. Mr. Posly stated the Knicks lived there. Stan is not aware of that. Lou asked what happened. Stan stated the inspector in charge told them they have to get it fixed. They tried putting a roof on it, but could not. They hired someone to tear it down. Lou stated he has the dilapidated house next to him and Mr. Kowalczyk stated he would not want it next to him. Mr. Kowalczyk stated it does look run down on the outside. Lou asked if anyone else on council has a dilapidated house next to them. Mr. Knick explained what was done tonight by appointing the three member appeals board as the first step. When we hire somebody whether it is the same guy or someone different and they feel it should be turned down, it would go to this board. Lou stated according to our solicitor he stated this is for rentals. Erik stated he is not sure who the inspector is going to be. He will also be in change of all other properties that anybody has complaints about. If he finds it is unhabitable, structurally deficient then he can do that. To this day, Erik understands this property is not structurally deficient. You don't decide what is habitable or structurally deficient. We have to rely on the inspector. Lou stated he was here at a meeting and there is an ordinance where when you have a boarded up house. Stan stated we can argue about this all night long but we have started the process, please let the process go through the right channels. Lou noted he has been dealing with this for many years. Erik stated if you can get an inspector to go up there and say it is structurally deficient and is a danger to the community, please do. Lou said the problem said if you have a house next to you like that your property value goes down. You have to protect the taxpayers on this ordinance too. You just cant say here is a house structurally sound so it can stay the way it is. That is not a solution to the problem. There is more to the problem than what you are saying. The point is the house has been abandoned for forty years. It may be structurally strong but it is bringing down the property values all around it. Pina added that the inspector went up there and tell us that. If we go against the inspector, we go to court and lose, then the Borough gets sued. You are violating the peoples rights. Pina stated if you drive around every street in Dupont there is a dilapidated house on each street. Lou said they should be taken down. They are decreasing every body's property values for one home. Not just Lidy, MainStreet this way, Main Street that way, Lackawanna, McLean, it is everywhere. Lou is stating you just made my point. Pina stated this is the steps the borough is trying to take to get this inspector in and get this board in place to get where Pittston City is now.

Fred Kotula – Thank everyone here for the last time I was here complaining about the quads. There was an improvement and to the police if you are involved, not often. I'm sorry but you only come up in the morning and that is it. 3 or 4 in the morning quads are not there then. Weekends, no police cars in sight. I don't know where they are at. Stan stated right now we are down with police. Fred stated here is a solution, at the end of Lidy Road in the keyhole, you see the tracks there, block it, that eliminates

anyone coming up. Stan stated we looked at putting guardrails up there. Fred stated he wanted to put nails down. They drive the quad 3 am past my house and I set up trail cameras. Stan stated you are complaining just about quads and I saw you today, did you see that motorcycle that came up through there. Chief responded about the patrols. Lou addressed the Chief about quads not being allowed, the Chief noted that is only in cities, not townships and boroughs. There is actually a borough that for whatever reason, gave up and made it legal. Ashland made it legal.

Joe Cigan – Everyone knows where the quads are coming from. They come by my house a little quieter now. I would suggest you and the chief talk to the kids father on the quads. Stan does not know who they are. Fred stated these are thirty year olds. Forty and fity year olds with their grandkids on the back.

Marty Kuna, Borough representative on LLVSA, I want to let you know about two projects going on that will greatly benefit Dupont. The one is a slipline one of the main lines down by Rygiels. (Marty said Andy's but it should be Rygiels). There are a couple cracks and breaks in there. Instead of digging up the road, we will slipline, a liner. The second one which will greatly impact this down is we received grant money through Senator Flynn to put in Avoca, a holding tank. To make this simple, its like when a warehouse goes in they put a catch pond in. When it rains really heavy this holding tank will fill up and drain out slow. It will catch all that so the lines don't back up anymore. Our engineers are 99.9% confident this will take care of the problems. Third, we also are not raising the rates next year, it will still be $280. I was here this week and gave Patty a check for the borough. We refinanced a couple of bonds. We got hit hard with the economy. Our chemicals went up 4x the cost for treatment. We are all working together. We are getting things done. Stan stated he appreciates what Marty does representing Dupont and for coming to the meeting.

Matters from Council and Mayor:

Joseph Jones – Reminder Election Day, Get out to Vote. In addition, the police report shows the mileage on the vehicles for the month. They are a busy department for a small town. They cannot be everywhere at same time. There are incidents that happen, one happened Saturday, where they were tied up all day. Fred Kotula said the last meeting I attended I asked for them to come up and patrol Friday, Saturday, Sunday 4 pm to whenever. Lou asked where they are coming from. Fred said from down by Arturos and by Sacred Heart Church up Walnut Street. 99.9 percent from Dupont. One guy has a homemade motorcycle. Lou said they come by his house. Fred said block it. Stan will look into guardrails.

Mark Kowalczyk - Three things, agree with Mr. Jones, Election Day, everyone come out to vote. Second, with the cops, maybe Mr. Kotula has a point, maybe certain guys on shift, maybe shift them around. Cops are seen all over the place, I see them, they are doing their job. Third, Halloween, I am sure everyone seen the reports. This is a great town. We have safety stations. Now, fentanyl that looks like candy. Look out for nieces and nephews. This world is getting ugly. This great town with all the people We band together, scare it out of here. Report anything suspicious.

Joseph Karkut – Police Department. He sees them going on his street. He sits on the front porch and sees cars going through stop signs without stopping. Continuously. Stop at a stop sign. He has a landline. He gets spam cars every twenty minutes. He wants to take the phone off the hook. He called comcast to get rid of the landline, but the rates will go up. Pina said pull the plug from the wall. Third, Pa American Water is flushing the lines. Everybody vote.

Bob Price – Three things - October 19th the Lions Club will be dedicating the Pavilion to Mayor Dan Lello. It is at 5pm. Brief ceremony. Second, Halloween night there will be safety stations, Everhart, Penn, Smith, Park. Third, candy issue, it looks like skittles, but it is pure fentanyl. What we are seeing is the overdoses were heroin with fentanyl and now it is fentanyl with heroin. So be very careful. The chief did mention to me and it was posted on the crime watch page, beware of a lot of scams going on right now. They are requesting money, it will come up on your phone as a federal agency, homeland security, Microsoft, that your account has been locked and they need money to get it out. They are converting that money you give them to bit coin and where it cannot be traced again and it is gone. It has happened to a few people in town the Chief mentioned to me and one other one that lost $55,000 last weekend.

Joe Karkut – jokingly talked about a $20 dollar bill his wife found on the sidewalk, looked real, said something about amusement park, warned people to be aware. Jokes about using it at local bars or using it and having the chief meet him outside the building had the audience laughing.

Mayor Elain Lello – When Mr. Knick and her husband were elected we only had police coverage from 9 to 5. They were determined, by their health and by all their hard work, Dupont now has seven days, 24 hour coverage. We have to complement out guys for that. We are short staffed like every other town, they are all begging for police officers. Who wants to be a police officer anymore, it is crazy out there. We have to commend Sean and his men for what they do. They cannot be in every spot at the same time. Fred Kotula said that all the time. I understand, but times have changed. Mayor Elaine added that more people are getting beat up in their households. We don't have the power to put two people on at one time. Fred Kotula said one day out of the weekend to see them when people come out of the woods. They wanted names. I gave them a map of where they are coming from. Am I supposed to be doing this. Times have changed I understand. I appreciate council stepping up. Fred Kotula continued talking about the patrols and times.

Mayor Elaine lives on Penn Avenue and she sees many people coast through the stop sign. How many have been to Italy, the bus driver said see that stop sign, it is only a suggestion.

Fred stated if you are not going to enforce it, why have a law.

Mayor Elaine thanked those who signed up for the appeals board.

Stanley Knick added that Mayor Elaine brought up Stan and Dan and he added Ed Kowalczyk, Mark's father was also instrumental in that.

Stan Knick thanked the three volunteers for signing up on the appeals board to help us move forward. Sometimes it takes courage and that is what we need. Hopefully things move forward and work out for the better.

MOTION TO ADJOURN BY Mr. Kowalczyk, second by Mr. Jones. Unanimous.

Respectfully submitted
